

Aniket Makhal

B.Pharm | Clinical Data Management | Healthcare Operations | Senior (Super ACE) Medical Documentation Specialist |
GCP Certified

Mumbai, Maharashtra | animac007@gmail.com | linkedin.com/in/aniketmakhal10 | Immediate Joiner

PROFESSIONAL SUMMARY

B.Pharm graduate with more than 5 years of experience supporting US telehealth physicians through real time clinical documentation across seven or more specialties and seven or more EHR platforms, including Athenahealth, Kareo, NextGen, Allscripts, Practice Fusion, and AdvancedMD. Comfortable with documentation quality, data integrity principles, and GCP (ICH E6 R3) expectations. Currently strengthening technical skills in SQL and Python to support a transition into Clinical Data Management, Healthcare Operations, and Healthcare Analytics.

KEY ACHIEVEMENTS

- Maintained high quality documentation across more than 5 years with no major quality or compliance escalations raised against me.
- Cross-trained across seven or more medical specialties, which is broader than what most scribe roles typically cover.
- Scored 98% on the GCP ICH E6(R3) certification (TransCelerate-recognized), which reflects a solid grip on clinical data integrity and regulatory basics.
- Took on informal mentoring for newer scribes, helping them get comfortable with EHR navigation and documentation standards during their ramp-up.
- Completed Python certification and currently pursuing SQL training to strengthen healthcare data analytics capabilities.

CORE COMPETENCIES

Clinical Documentation & EHR Systems	Athenahealth, Kareo, NextGen, Allscripts, Practice Fusion, AdvancedMD (7+ platforms)
Data Quality & Compliance	GCP ICH E6(R3), data integrity principles (accuracy, completeness, consistency, traceability, and timely documentation), documentation standards suitable for quality review
Clinical Data & Analytics (in progress)	SQL (MySQL), Python, data cleaning, basic reporting and visualization
Regulatory & Documentation Standards	Clinical terminology, medical coding awareness, familiarity with GCP documentation expectations
Cross-Functional Coordination	US physician workflows, multi-specialty documentation, telehealth operations
Languages	English, Hindi, Marathi, Bengali

PROFESSIONAL EXPERIENCE

Senior Medical Scribe | OG Healthcare

December 2020 to March 2026

- Supported US telehealth physicians across seven or more medical specialties, producing real time clinical documentation across seven or more EHR platforms.
- Kept documentation accurate, complete, and consistent, supporting downstream clinical and billing accuracy.
- Adapted rapidly to new physician workflows, specialties, and EHR platforms while maintaining documentation quality and turnaround times.
- Worked in real time with physicians and care teams to ensure documentation was complete and accurate before physician sign off, reducing clarification requests and downstream corrections.
- Reviewed documentation for completeness and accuracy before physician sign off, catching gaps before they became downstream problems.
- Documented 20 to 25 patient encounters per shift on average across multiple specialties without letting turnaround time slip.
- Guided newer scribes through EHR navigation and documentation standards while they were ramping up.
- Maintained strict HIPAA compliance, patient confidentiality, and secure data handling in line with US healthcare requirements.

- Completed a structured training period (December 2020 to August 2021) covering clinical terminology, EHR navigation, and documentation standards across specialties.

EDUCATION

Bachelor of Pharmacy (B.Pharm) Gautham College of Pharmacy, Bengaluru Graduated 2020

CERTIFICATIONS & TRAINING

- GCP ICH E6(R3), TransCelerate recognized, Certificate ID GCP-TR-202605-F0249B, scored 98%, valid through May 2028
- Advanced Data Science and AI Program, Learnbay, Python certified, machine learning fundamentals completed
- SQL / MySQL Bootcamp, Udemy, currently in progress
- Maharashtra State Pharmacy Council Registration, active license

ADDITIONAL INFORMATION

- Open to remote, hybrid, and on-site opportunities across India.
- Comfortable working alongside US based teams during overlapping daytime hours.
- The documentation discipline built over more than 5 years of scribing carries over directly into structured data entry, quality checks, and reporting work.
